I've had an iPhone for about 6 months now and I've been pretty happy with the OS and it's features. I was wondering what people thought of the iPhone 11 and whether you were really happy with the OS. I got a random free iPhone 11 after a friend had been splashed in the face with a puddle and the case cracked and I thought I'd give it a go. I don't usually buy new phones unless I absolutely have to as I'm cheap and feel that older models usually have better specs. I tried to look for reviews on the phone but only the top 10 came up. What do you think? Is there a difference between the top 10 reviews? Is this the best phone for me? The iPhone 11's reviews The iPhone 11 Reviews In the past, we wrote here on iPhoneSeize about a security flaw with OTA updates. This has now been fixed in iOS 12, with no plans to release another patch. This month, Apple released a patch for iOS 12.1.1 which appears to have fixed this issue. You can install this
